Congressman Bost Secures \$1 Million For Centralia Water Plant Project

The City of Centralia is pleased to announce the successful receipt of a \$1 million grant following the recent approval of funding for interior programs and public health and safety by the U.S. House of Representatives. The funding, secured by U.S. Representative Mike Bost, will be instrumental in advancing the Water Plant replacement in Centralia.

The City of Centralia extends their gratitude to U.S. Rep. Mike Bost for his commitment to securing funding for this vital project. His effort to personally visit Centralia and review the proposed projects firsthand demonstrates a genuine commitment to the well-being of our city. The positive impact of this improvement will assist Centralia and the surrounding communities for years to come.
