Water Disruption

The City of Centralia Public Works Department have responded to a water main break along Greenview Rd. this morning. They are currently isolating the identified leaks but expect disruption in water service for several hours as they make the needed repairs. At this time, it has been determined that the area affected is South along Perrine Street from Rotary Park to Greenview Road and the area West of Hwy 51 between Walnut Hill Road and Greenview Road. The crews are working diligently to determine the exact locations effected and the estimated completion time of repairs. Further updates will be provided later today. Once service is resumed, those effected will be under a boil order.
